CIRCULAR

In the context of the COVID 19 pandemic, academic activities are planned, keeping in view the safety of all stakeholders and prioritizing the health of all concerned. The unexpected turn of events since March 2020 has brought forth difficulties and challenges to all. Efforts are being taken to address the genuine concerns that students have. A grievance redressal system is put in place, in PEC, to enable the institute to meet the challenges and address the problems of the students. Also, if any student is facing financial problems due to the pandemic and needs financial support, requests for assistance can be sent, with document proof.

All grievances/complaints/concerns/queries/suggestions/requests related to academic/personal activities arising due to the pandemic may be emailed to covid19help@pec.edu.

All grievances related to the present situation will be addressed, taking into consideration the best interest of all the stakeholders
